YOUTH HEALTH & WELLNESS

Tumbling

Children will learn the fundamentals of tumbling and lead-up gymnastics skills with proper progressions. The focus is on building strength, coordination and self-esteem. Children in the older class must be able to successfully forward roll, backward roll and perform cartwheels. They will learn more advanced moves and routines. The instructor reserves the right to place children by skill level rather than age for safety and appropriate progressions.

Day: Tuesday
Time: 4:00–4:45PM
Ages: 5–7 years
Instructor: Julie Rose Utgard
Fee: \$50 members/\$225 non-members

Day: Tuesday
Time: 5:00–5:45PM
Ages: 8–11 years
Instructor: Julie Rose Utgard
Fee: \$50 members/\$225 non-members

Little Movers

This parent/caregiver assisted class provides students the opportunity to interact with each other in a safe, developmentally appropriate environment. The focus is on sensory awareness and play, allowing children to build gross motor skills and practice social engagement skills while gaining independence through guided and supportive activities. Music and story time included!

Day: Wednesday
Time: 9:30–10:15AM
Ages: 18 mo – 3 years
Instructor: Kate Roller
Fee: \$50 members/\$225 non-members

Taekwondo

This is a Korean form that focuses on foot movements and power kicks to "develop spirit within" for all aspects of life.

This Spring session will be 4 weeks long starting April 30th and ending May 21st.

Day: Wednesday
Time: 5:30–6:15 PM
Ages: 7–11 years
Instructor: Sabunim Rufilo Lawrence
Fee: \$30 members/\$125 non-members

Martial Arts

Whether your child is bursting with energy or quiet in social settings, martial arts can help develop qualities and habits such as confidence, patience and self-discipline. It provides opportunity to explore individuality through the development of skills. Instructors reserve the right to place students by skill rather than age for safety and appropriate progressions.

STAGE DESCRIPTIONS

SWIM STARTERS

Accompanied by a parent, infants and toddlers learn to be comfortable in the water and develop swim readiness skills through fun and confidence-building experiences, while parents learn about water safety, drowning prevention, and the importance of supervision.

A / WATER DISCOVERY
Parents accompany children in stage A, which introduces infants and toddlers to the aquatic environment through exploration and encourages them to enjoy themselves while learning about the water.

B / WATER EXPLORATION
In stage B, parents work with their children to explore body positions, floating, blowing bubbles, and fundamental safety and aquatic skills.

1 / WATER ACCLIMATION
Students develop comfort with underwater exploration and learn to safely exit in the event of falling into a body of water in stage 1. This stage lays the foundation that allows for a student's future progress in swimming.

2 / WATER MOVEMENT
In stage 2, students focus on body position and control, directional change, and forward movement in the water while also continuing to practice how to safely exit in the event of falling into a body of water.

3 / WATER STAMINA
In stage 3, students learn how to swim to safety from a longer distance than in previous stages in the event of falling into a body of water. This stage also introduces rhythmic breathing and integrated arm and leg action.

4 / STROKE INTRODUCTION
Students in stage 4 develop stroke technique in front crawl and back crawl and learn the breaststroke kick and butterfly kick. Water safety is reinforced through treading water and elementary backstroke.

5 / STROKE DEVELOPMENT
Students in stage 5 work on stroke technique and learn all major competitive strokes. The emphasis on water safety continues through treading water and sidestroke.

6 / STROKE MECHANICS
In stage 6, students refine stroke technique on all major competitive strokes, learn about competitive swimming, and discover how to incorporate swimming into a healthy lifestyle.

SWIM STROKES

Having mastered the fundamentals, students learn additional water safety skills and build stroke technique, developing skills that prevent chronic disease, increase social-emotional and cognitive well-being, and foster a lifetime of physical activity.

YOUTH SWIM LESSONS

The Y is the nation's leading expert in water safety and swim instruction. Ys across the country have adopted a swim lesson curriculum that makes it easier for children and adults to become comfortable and safe in and around water. Lessons begin with the development of basic self rescue skills as well as gaining confidence and ease in the water. From there, swimmers refine the strokes they have learned and progress their skills. Please refer to the Lesson Selector and Stage Descriptions to learn more about our youth swim levels.

SWIM STARTERS (Ages 6 months–4 years) Parent/Child

Blood Pressure Self-Monitoring Program

One in three American adults has high blood pressure, which puts them at risk for stroke and heart disease, two of the leading causes of death in the U.S.

In response to this critical health issue, YMCA's Blood Pressure Self-Monitoring program offers personalized support as participants develop the habit of monitoring their blood pressure. Research shows that the process of recording blood pressure at least twice a month over a period of four months can lower blood pressure in many people with high blood pressure.

Blood Pressure Self-Monitoring is one part of Y-USA's suite of evidence-based chronic disease prevention programs. Since 2005, the Y has worked to become a leading provider of chronic disease prevention programs to communities across the U.S. Participants will:

- Take and record their blood pressure at least two times per month
- Attend two consultations a month with a Healthy Heart Ambassador
- Attend monthly nutrition education seminars

Blood Pressure Self-Monitoring Program (BPSM)

HEALTHY HEARTS, LOW PRESSURE

- Receive a free blood pressure cuff
- Learn how to measure and record their blood pressure
- Attend two 10-min. blood pressure consultations per month
- Attend monthly nutrition education seminars to develop healthier eating habits

Includes FREE digital blood pressure cuff.

4-month program
Scholarships are available.

Program cost \$40.00 - For more information or to enroll in the program email our Director of Healthy Living, Merilee Perkins at MPERKINS@SANFORDYMCA.ORG
